Thanks Karen. Can you provide a little more detail on the main data submission milestones

Whose data. Who submitted and who did the data collection.

What date received.

What wells were in the package

Parameters in the package. Organics. Metals. Methane. Etc.

Thanks. Things are rolling out tomorrow likely.

Subject: Chronology of data

Here is a draft of what I could piece together on the chronology of events for data review and what /when we got what kinds of data. Please take a look and make any suggestions to get it straightened out for Shawn's needs. Thanks!
